Re: **127-18194-00093**
Third Notice Only Change to
MSOP 127-11699-00093

Dear Mr. Wright:

Chrome Deposit Corporation was issued a permit on April 20, 2000 for a stationary chromium electroplating operation. A letter requesting a change was received on November 3, 2003. Pursuant to the provisions of 2-6.1-6, the permit is hereby changed as follows:

Chrome Deposit Corporation has submitted a request to replace the existing 15,000 amp capacity rectifier of existing System B with a new 15,000 amp capacity rectifier.

The proposed rectifier is determined to be the replacement of a part of a process, does not qualify as a reconstruction of an entire process, and the proposed change will not result in an increase in any regulated pollutant emissions.

Therefore, the proposed change shall be incorporated into the permit via a Notice Only Change pursuant to 326 IAC 2-6.1-6(d)(12) which states a modification of an existing source if the modification will replace or repair a part or piece of equipment in an existing process and the modification does not result in the replacement or repair of an entire process, qualify as a reconstruction of an entire process, or result in an increase in actual emissions, may be incorporated into the permit via a Notice Only Change.

Replacing the rectifier does not result in any changes to any existing permit conditions and does not trigger any new applicable requirements. Therefore, all other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this Notice Only Change and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Scott Fulton, at (800) 451-6027, press 0 and ask for Scott Fulton or extension (3-5691), or dial (317) 233-5691.
